

SUBASH LAMA

System Administrator | Cybersecurity — SOC, Detection & GRC

Kathmandu, Nepal • +977 9840005771 • lamasubash107@gmail.com • linkedin.com/in/subash-lama-b319a016b • github.com/Subash107

PROFESSIONAL SUMMARY

System Administrator with 10+ years of experience in IT infrastructure, network security, and automation, transitioning into cybersecurity with a focus on security operations, detection engineering, and GRC. Hands-on expertise in SIEM implementation (Wazuh), intrusion detection (Suricata), incident response, vulnerability assessment, and system hardening across enterprise environments of 200+ users. Currently operating a self-built security monitoring and detection lab, researching security data normalization and sensor correlation to unify heterogeneous telemetry for threat detection. Business degree holder, bringing the ability to connect technical risk to organizational impact.

CORE COMPETENCIES

SIEM (Wazuh) • Intrusion Detection (Suricata, Sysmon) • Incident Response • Threat Detection & Log Analysis • Vulnerability Assessment • System Hardening • IAM / Active Directory • GRC & Security Compliance • Network Security & Firewalls • Linux Administration • Automation (Python, Bash, PowerShell) • CI/CD & Infrastructure as Code

PROFESSIONAL EXPERIENCE

Independent Cybersecurity Researcher (Career Development)

Mar 2025 – Present

Self-directed Security Research Lab | Kathmandu, Nepal

- Designed and operate a layered security monitoring and detection lab integrating Wazuh (SIEM), Suricata (IDS), Sysmon, Pi-hole (DNS filtering & monitoring), and mitmproxy (TLS traffic inspection) within Linux virtualized environments (Hyper-V & WSL2)
- Researching security data normalization and sensor correlation using canonical ontology concepts (CaSOB) to unify heterogeneous security telemetry for threat detection and analysis
- Authored SOC workflow documentation, including a Wazuh alert investigation SOP and lab architecture guides published on LinkedIn
- Automated deployment, service monitoring, and infrastructure hardening using Python and Bash, mapping detections to MITRE ATT&CK techniques
- Active bug bounty researcher on HackerOne, Intigriti, and Bugcrowd, performing web application vulnerability research and responsible disclosure

IT Officer / System & Network Administrator — Primuson Pvt. Ltd

Jan 2020 – Feb 2025

Kathmandu, Nepal

- Managed and monitored network infrastructure across 5+ offices, achieving 99.9% uptime for 150+ users
- Administered DNS, DHCP, and network monitoring tools, reducing mean time to resolution (MTTR) by 40%
- Implemented automated backup and disaster recovery solutions, eliminating data loss incidents over 3 years
- Enforced security policies and conducted regular vulnerability assessments, reducing security incidents by 60%
- Maintained on-site enterprise IT operations supporting a workforce of 100+ employees

IT Specialist (Contract) — State Bank of India

Mar 2018 – Apr 2019

Kathmandu, Nepal

- Managed proxy servers, firewalls, and Active Directory services for 200+ banking staff accounts
- Ensured 100% compliance with enterprise security policies and regulatory requirements across all managed systems
- Conducted incident response and root cause analysis for security events, minimizing business impact
- Reduced system downtime by 30% through proactive monitoring and patching of hybrid infrastructure

IT Consultant (Contract) — Unilever

Jan 2017 – Dec 2017

Nepal

- Supported Cisco networking infrastructure and Active Directory management for a 50+ user enterprise environment
- Performed network security audits and implemented hardening measures, achieving zero critical security incidents
- Maintained secure hybrid IT operations aligned with global corporate IT standards

Support Engineer — Green IT Solutions Pvt. Ltd

Mar 2016 – Apr 2019

Kathmandu, Nepal

- Delivered technical support and ICT infrastructure solutions for 10+ enterprise clients, maintaining 98% SLA compliance
- Administered ICT systems including storage virtualization, proxy servers, and core network services
- Diagnosed and resolved 500+ incidents across hardware, software, and network environments, reducing recurrence by 35%

IT Trainee — Platinum Hotel & SPA

Mar 2014 – May 2016

Soltee Mode, Nepal

- Provided IT support covering hardware, software, and network troubleshooting for a 100+ room hospitality facility
- Assisted in maintaining daily IT operations, reducing average ticket response time by 25%

KEY PROJECTS

- Security Monitoring & Detection Lab — layered adversary-in-the-middle traffic inspection and threat detection system combining DNS filtering, TLS interception, SIEM correlation, and custom alerting (see Experience above)
- Bug bounty + SIEM lab environment (ParrotOS + Windows) used to identify and document 15+ vulnerability patterns for proactive threat mitigation; active researcher on HackerOne, Intigriti, and Bugcrowd
- CI/CD pipelines with GitHub Actions, reducing deployment time by 60% and eliminating manual release steps
- Full-stack monitoring with Prometheus and Grafana, enabling real-time observability and alerting across 10+ services

TECHNICAL SKILLS

Security & Monitoring: Wazuh (SIEM), Suricata (IDS/IPS), Sysmon, mitmproxy, Pi-hole, MITRE ATT&CK, Incident Response, Vulnerability Assessment, Threat Detection, Log Analysis, System Hardening

Networking: Firewalls, VPN, Routing & Switching, Cisco, DNS, DHCP, VLAN, Proxy Servers, Network Traffic Analysis (tcpdump, Zenmap)

Systems & Cloud: Linux (Ubuntu, Red Hat, Debian), Windows Server, Active Directory, Office 365, AWS, Cloud Security, MySQL

Virtualization & Containers: VMware vSphere/ESXi, Hyper-V, WSL2, Docker

DevOps & Automation: Python, Bash, PowerShell, GitHub Actions (CI/CD), Ansible, Infrastructure as Code, Prometheus, Grafana

CERTIFICATIONS & TRAINING

- Ethical Hacker — Cisco Networking Academy (2026)
- Introduction to Cybersecurity — Cisco Networking Academy (2026)
- Cybersecurity Fundamentals — IBM SkillsBuild (2026)
- Diploma in DevOps — Deerwalk Training Center, Nepal (2023): CI/CD pipelines, AWS fundamentals, automation
- CCNA — Cisco Certified Network Associate training — Staff College, Jawalakhel, Nepal (2016)

EDUCATION

Bachelor of Business Studies — Nepal Mega College

2022

High School (Computer Science) — Kasthamandap College, Kalanki

2014

LANGUAGES

Nepali (native) • English (professional working proficiency) • French (elementary, actively studying)
